Art Unit: 1714

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recited "Gardner color value of at most **X**" in claim 1 is indefinite, and lacks an antecedent basis in the specification. The recited "wherein polyoxyalkylene constituent is selected from the group consisting of from 1 unit to as many as 100 repeating units of at least one of C₂₋₂₀ alkyleneoxy ---" in claim 1 is confusing and incorrect since an "ethyleneoxy" is **not** polyoxyalkylene. The recited "Et" of Formula in claim 1 is indefinite absent any definition thereof.

The recited "---a compound selected from the group consisting of at least one compound comprising at least one oxyalkylene-containing group selected from the group consisting of at least one ---" in claim 2 is improper Markush format and confusing since it is unclear with respect to metes and bounds of said compound. The recited "a compound" in line 7 (step b) of claim 2 is indefinite absent any definition thereof such as a functional group.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 1714

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 6,559,216. Although the conflicting claims are not identical, they are not patentably distinct from each other because the recited definition for X, Y and R₃ and R₅ of said patent encompasses the instant compound.
